

VIDEO LAB AV SET-UP

General Info

VIDEO

The Crestron is set-up to switch automatically to a new signal. For example, if you turn on Apple TV, the Crestron will switch to it automatically. When you turn off Apple TV player, the Crestron will switch back to the computer.

1=Mac | 2=Laptop | 3= DVD
4= Apple TV

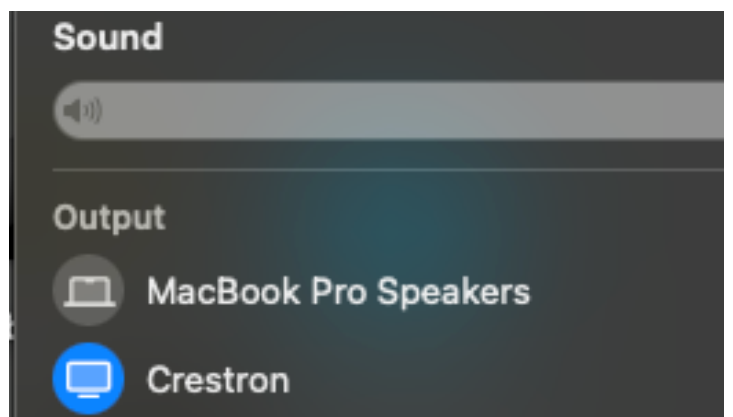

AUDIO

For audio output, make sure the amplifier is set to Crestron.

LAPTOP

Connect the USB cable from the dock to your laptop and set the audio to Crestron

Apple TV

Click on the menu bar control settings and select screen mirroring
